	Project 2	

During my studies at school and at University I received training in the following languages:

- HTML
- CSS
- SQL
- Java
- JavaScript
- Visual Basic
- GitHub
- Angular

### **EXPERIENCE:**

#### **Projects undertaken whilst studying:**

- Created a point of sales system for a Lavender and Lace, a wool company in Kimberley.  
The main purpose of the system was to:
  - Track stock quantities and alert the user of low amounts of stock in certain areas;
  - Calculate the total value of all stock on the premises;
  - Deduct stock from the database once a purchase was made;
  - Allow the user the functionality of entering new stock into the database;

The system was developed using NetBeans - an IDE. The system benefited the company significantly since they were still using old techniques of capturing stock manually, which took a whole day.

#### **Performed survey assistant field work:**

- Assisted a Professional Surveyor during weekends and holidays to perform various surveys. My duties were as follows:
  - Ensuring that all survey equipment and material were loaded on vehicle;
  - Setting up tripod and GPS (Trimble and Leica);
  - Operating the moving rover capturing point name and code for topographic surveys;
  - Using a GPS receiver searching for known points and placing pegs;

- Measuring spot shots on mine dumps for volume calculations;
- Measuring position of boreholes for prospecting programme.

#### **Working at CS DIAMONDS, Kimberley:**

- Worked at CS Diamonds in a professional and fast paced environment that needed split second and accurate decision making. My duties were as follows:
  - Checking the weight of the diamonds at a weighing station to ensure that each diamond is accurate and within specified weight;
  - Communicating with and assisting international diamond bidders to ensure that their needs and expectations were realised;
  - Ensuring that the location of all diamonds was known at all times;
  - Ensuring that diamonds are locked up in a safe and that all diamonds are accounted for.

### **LIFE EXPERIENCE**

#### **Sport**

- Rugby, Long Distance Running, Trail Running.

#### **Interest and Hobbies**

- Snowboarding, Computers, Fishing, Jogging.
